Heating, Piping & Air Conditioning

January-December, 1944 — Vol. 16, Nos. 1-12

Published monthly by the Keeney Publishing Company, 6 N. Michigan Ave., Chicago 2, Ill.

The index to the Journal Section of the American Society of Heating and Ventilating Engineers is separate (see page ix).

This index does not include Equipment Developments; Recent Trade Literature; Meetings & Conventions; New Books & Reports—departments appearing regularly each month. The Editor's Pages in each issue include items of news, comments on current events, etc. In the January issue a complete directory section was published covering heating, piping and air conditioning equipment for industry and large buildings.
